CID : 6359AA1

PROFILE

I'm Janani, an aspiring Full Stack Developer pursuing a Bachelor's degree in Computer Science Engineering. I have hands-on experience as a Frontend Developer and a strong interest in building user-centric web applications. Alongside my technical skills, I bring creativity and strategic thinking as a Content Strategist, focused on enhancing user engagement and digital presence.

WORK EXPERIENCE

AdroIT Technologies 2026

Web developer - Intern

- Developed the certificate management UI and verification features, integrating React frontend, Node.js/Express backend, MongoDB storage, and dynamic certificate generation/download functionality to provide a seamless user experience.

Edoras 2026

Software Developer - Intern

- VitalGuard is a Java-based health monitoring system that analyzes patient vitals, calculates risk levels, detects health trends, and generates intelligent health alerts.
- Designed and developed 18 Modules, including risk analysis, trend detection, report generation, security controls, audit logging, health monitoring, metrics tracking, and automated testing.

Prodigy InfoTech 2025

Web developer - Intern

- Developed responsive web applications with a focus on UI/UX, performance, and cross-browser compatibility.
- Built interactive web projects, including landing pages, games, portfolios, and real-time applications.

CodSoft 2025

Web developer - Intern

- Developed responsive web applications, focusing on clean UI/UX and consistent performance across devices.
- Built interactive web projects, including a personal portfolio, responsive landing page, and classic calculator.
